

Prove of Value

Crime Stoppers, we can not rely on the name alone – we must show prove of value.

“I know the
name Crime
Stoppers, but...

“It’s commonplace for corporations looking to give back and engage with a philanthropic organization to investigate and research the organization with which it chooses to partner. Business leaders understand that their corporate giving reflects back on their for-profit dealings. It makes sense that they want to join organizations with missions their customers respect and value to hopefully reflect positively on their own operations.”

Quote: Forbes Magazine – “How Nonprofits can Create Lasting Corporate Support” January 28,2022

- Financial reports demonstrate how a for-profit organization is performing.
- What does Crime Stoppers have to demonstrate success?
