# Thinking (WAY) Outside the Fund Development Box

Julie Lopez Tryphena Clarke Meghan Chen

# Planting the Seeds

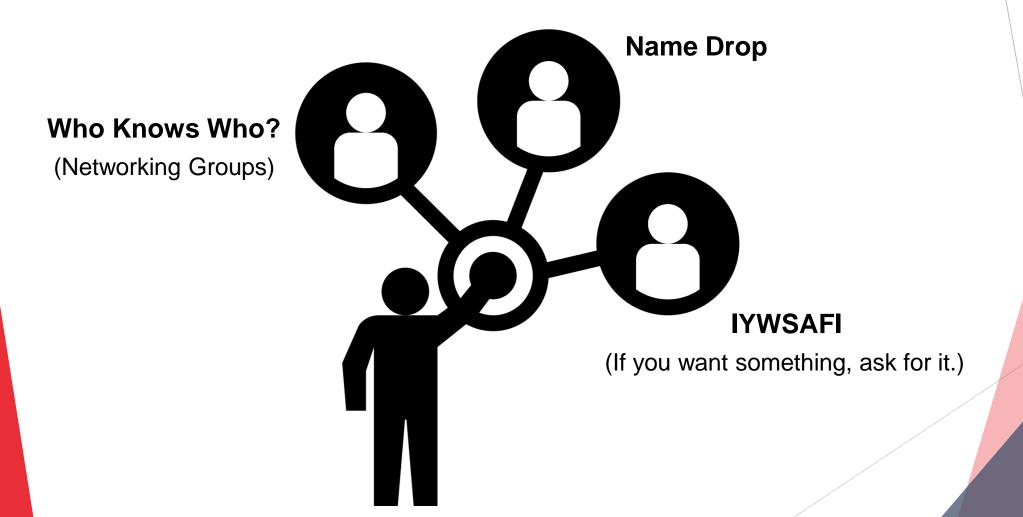

- Plant the seeds when you attend community meetings and events. It is the first step in growing important relationships!
- Directors and Board Members should represent Crime Stoppers whenever possible.
- These interactions don't always involve asking for money, but if you take the time to nurture connections, there is a good chance they will blossom into great funding opportunities later on!

#### Keys to Connecting

YOU need to MAKE connections happen!

## Following Up

The importance of following up (watering the seed)

- Making contact:
  - Phone call: be equipped with stats and a success story.
  - Email: attach a letter with history, story, stats, achievements, testimonials, and a pledge form.
  - **If sponsorship**, follow up with an acknowledgement detailing donation for tax records. Send a personal, handwritten thank you note.
  - If no sponsorship, follow up with a phone call.

## Highlighting Sponsors

What do you do for your sponsors in return?
(a little more watering..)

- Create a thank you post on social media (tag sponsor if available)
- Display a thank you poster at events.
- If possible, highlight sponsors (especially those your organization has an established/collaborative relationship with) on billboards.
- Send an email blast with a success story, noting that their contribution has helped make a positive difference.
- "Follow/Like/Share" their social media posts when relevant to Crime Stoppers, safety, and/or community engagement.

#### Importance of Growth & Maintenance

Once a connection has grown, keep it alive!

Suggestions on how to work at those relationships...
